Question: Please make any comments you wish about the course:	
Loved this course. It was very insightful.	
I absolutely loved this class it is my favorite class so far. I feel I learned so much and really liked the way the professor set it up. All psychology online classes should utilize my psych info	
Cognitive Psych is a challenge.	
This was by far the best course I have ever taken. Not only was the material interesting but informative and challenging. I couldn't wait to start a new week of this course so that I could learn more and more. I actually looked forward to taking the quiz each week for this course as well.	
Assignments were the same every week. Maybe next semester switch it up a bit. Have students write small essays for homework, post onto discussion boards.

Instructor Randick is WONDERFUL.	
Phenomenal. One of the best instructors I've ever had. answered emails promptly, always available to help. Seemed to actually cared about whether or not us students were doing well in the class.
