What did you find most useful in this class? If you were to ensure that something was to stay in the course, what would it be?

- I think using the Voice Thread technology was a good idea and it made a positive difference for me. The text for this course was unusually good; that should stay for sure.
- I really liked the interactive slide/video site the teacher used
- Excellent and insightful teaching. I loved using the voice thread technology to hear all of my classmates. This course made me think harder than I usually do.
- I really enjoyed the voice and video threads
- Common Factors in Therapy emphasis

Comments: Use the space provided in the text area below for your comments.

- Nicole was more involved than some online teachers have been in the past—a very good thing I think. I also gained a lot from the other class participants. Overall, I'm very happy I took this class and feel lucky to have had Nicole and the group of students involved.
- Outstanding instructor!
